SUBJECT: Get Ready for FSFN Enhancements – Title IV-E Extended Foster Care and Extension of the Maintenance Adoption Subsidy

PURPOSE: The purpose of this memorandum is to provide a status on the Florida Safe Families Network (FSFN) enhancements scheduled to be implemented on January 4, 2019 so final preparations can be made locally to "Get Ready" for the changes.

BACKGROUND: As a part of Florida's Path Forward program, the state sought additional funding streams to leverage Title IV-E funds to supplement general state revenue. During the 2018 legislative session, the legislature approved the creation of a federally funded Title IV-E Extended Foster Care program (EFC). The Extension of the Maintenance Adoption Subsidy (EMAS) is a requirement of the Extended Foster Care program. Although the current EFC Program incorporates several components that model the requirements in the federal Fostering Connections Act, moving to a federally-funded program requires policy changes and FSFN enhancements to support these changes.

High Level Overview of Title IV-E Extended Foster Care Program Changes:

In addition to making critical revisions that will ensure Florida maximizes the Title IV-E federal funding reimbursement available to eligible young adults in the program, there are many big changes for local teams running the program and youth that are in the program including:

- The implementation of the new supervised living arrangement assessment and the shared living plan.
- The implementation of a universal Extended Foster Care agreement that will capture the youth's consent to participate in the program during the 90-day transition prior to the child's 18th birthday.
- The enhancement and renaming of the application to an Extended Foster Care Voluntary Placement Agreement.

These revisions were critical to ensuring that Florida maximizes the Title IV-E federal funding reimbursement available to eligible young adults in the program. Eligibility staff will

continue to maintain Title IV-E Eligibility for young adults that remain in foster care after their 18th birthday and will start processing Title IV-E Eligibility for young adults that opt out and back into the program.

High Level Overview of Extension of the Maintenance Adoption Subsidy:

The Extension of Maintenance Adoption Subsidy (EMAS) allows for additional support to young adults whose parents entered into an initial adoption assistance agreement at age 16 or 17 and elected to participate in the EMAS program until the age of 21.

In preparation for the enhancements to “go-live” on January 4, 2019, there is a continuous effort to assess and achieve people readiness, system readiness, and the implementation of a support plan. The following is a status on our readiness assessment:

PEOPLE READINESS: On Target! – All Regions report that staff plans are underway to finalize readiness activities prior to go-live.

SYSTEM READINESS: Complete! – FSFN User Acceptance Testing is complete.

SUPPORT READINESS: Complete! – Policy Updates are complete and FSFN System Documentation updates are in progress.

A project website has been setup on the Center for Child Welfare’s website to house all project related policy, training, FAQ, and FSFN documentation.
